DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Arnold (5,000,384) in view of Wingen (3,893,467).

Arnold discloses a portable misting umbrella comprising: a portable umbrella having a canopy 60, shank 56, and handle 58; a distribution tubing network 64; spray nozzles 66; a fluid supply tubing 18. Arnold does not disclose the details of the umbrella stored position and unfurled position. Umbrellas which can be closed and opened are well known. Wingen discloses an umbrella having: ribs 17,21,7; a ring 14,16; spreaders 15. It would have been obvious to a person having ordinary skill in the art at the time of the invention to have replaced the canopy of Arnold with the canopy of Wingen to enable folding of the umbrella.

Allowable Subject Matter

3. Claims 2-8 and 10-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Apple discloses a misting umbrella. Noel disclose umbrella construction.
